MICRO*Scan*III

The MicroScan III is a compact, air-cooled, integrated DPSS projector that features bright Green laser output of 1.7W. The complete system is ILDA ISP compliant and includes the laser head, CTI scanners, and drive electronics inside a durable hermetically sealed chassis with mounting bracket. The system requires one power outlet, with universal capability (90-250 VAC, 50/60 Hz).

The combination of this projector's low divergence and high-speed direct modulation make it excellent for single color graphics and-or beam effects.
